Agenda

Get a complete overview of recent insights and future trends in modern software development and AI.

GET TICKETS

Day 0

9 July 2025
11:00 - 18:00

- Pre-check-in & Badge Pickup
- Workshops (starting at 11:00)
- Masterclasses (starting at 09:00, all-day)
- Official Satelitte Events

Day 1

10 July 2025
08:00 - 00:00

- Regular Check-in
- Official Opening Ceremony
- Main Conference Sessions

Tech Leaders Night

Workshops & Masterclasses

Tech Expo

CODE100: Europe's Ultimate Coding Competition

Congress party

Day 0 - Masterclasses

9 July 2025
Info for attendees of paid masterclasses

Masterclasses are available **only to attendees who purchased a paid upgrade**.

Please note: **Access to WeAreDevelopers World Congress is not included** with a Masterclass ticket unless you have purchased a **separate Congress pass**.

All masterclasses will be held at **MOA Hotel Berlin**
Address: Stephanstraße 41, 10559 Berlin, Germany

08:00 - 09:00 | Registration
09:00 | Start of Masterclass
10:30 - 11:00 | Break I
12:30 - 13:30 | Lunch Break
15:00 - 15:30 | Break II

17:00 | End of Masterclass

What to bring:
Please bring your own laptop, as the Masterclasses are designed to be hands-on and practical.

WeAreDevelopers World Congress Pass Pickup:
If you upgraded your WeAreDevelopers World Congress pass with a masterclass seat, you can check in at the registration. Your pass will be ready there, so you'll already have it for the main event the next day.

Main Conference Program

Thursday Friday

Thursday, 10 July 2025

	Mainstage	Stage 1	Stage 2	Stage 3 - Microsoft
9:15 am				

10:10 am

10:10 am → 30 min

The State of GenAI & Machine Learning in 2025

Alejandro Saucedo

10:10 am → 30 min

Hidden efficiency - How to enable your non-engineers as a CTO

Andi Stryz

10:10 am → 30 min

Best practices: Building Enterprise Applications that leverage GenAI

Damir

10:10 am → 30 min

Migrating from COBOL with AI: A Moonshot Demo

Julia Kordick

10:50 am

10:50 am → 30 min

The End of Software as we know it

Paul Adams

10:50 am → 30 min

GenAI Security: Navigating the Unseen Iceberg

Maish Saidel-Keesing

10:50 am → 30 min

Building AI Applications with LangChain and Node.js

Julián Duque

10:50 am → 30 min

Agentic AI - From Theory to Practice: Developing Multi-Agent AI Systems on Azure

Ricardo

11:30 am

11:30 am → 45 min

Compose the Future: Building Agentic Applications, Made Simple with Docker

Mark Cavage

Tushar Jain

11:30 am → 30 min

Overcoming bottlenecks of Platform Teams

Candost Dagdeviren

11:30 am → 30 min

Accelerating Python on GPUs

Paul Graham

11:30 am → 30 min

Infrastructure as Prompts: Creating Azure Infrastructure with AI Agents

Marcel Scherenberg

12:10 pm

12:10 pm → 30 min

How to Destroy a Monolith?

Babette Wagner

12:10 pm → 30 min

Introducing JSON Structure - A Better Schema
Clemens Vasters

12:50 pm

12:50 pm → 30 min

MCP Mashups: How AI Agents are Reviving the Programmable Web
Angie Jones

12:50 pm → 30 min

Happy engineer, happy company - how to optimize engineering productivity
Agur Jõgi

12:50 pm → 30 min

Three years of putting LLMs into Software - Lessons learned
Simon A.T. Jiménez

WeAreDevelopers World Congress
Berlin · Germany
GET TICKETS

1:30 pm → 30 min

402 - Payment Required

Brian Whippo

1:30 pm → 30 min

Solving the puzzle: Leveraging machine learning for effective root cause analysis

Bernhard Varsha Venugopal

1:30 pm → 30 min

From Traction to Production: Maturing your GenAIOps step by step

Maxim Salnikov

2:10 pm → 30 min

2:10 pm → 30 min

2:10 pm → 30 min

2:10 pm → 30 min

Software is the New Fuel, AI the New Horsepower - Pioneering New Paths at Mercedes-Benz
Katrin Lehmann
Magnus Östberg

Mobile AI Just Got Faster: What's Coming for Developers on Arm
Gian Marco Iodice

Beyond the Prompt: Evaluating, Testing, and Securing LLM Applications
Mete Atamel

Leave it to the Dutch: How to save on your Azure bill!
Michaël Hompus

2:50 pm

2:50 pm → 30 min

Reimagining the Developer Experience: The AI Advantage
Anu Bharadwaj
Tobias Schlottke

2:50 pm → 30 min

Mastering AWS Cost Optimization: Real-world technical and operational cost-saving best practices
Joachim Aumann
Olga Calvo

2:50 pm → 30 min

The AI Agent Path to Prod: Building for Reliability
Max Tkacz

2:50 pm → 30 min

Azure-Well Architected Framework - designing mission critical workloads in practice
Paweł Siwek

3:30 pm

3:30 pm → 30 min

The future of Stack Overflow as the most vital source for technologists
Prashanth Chandrasekar
Jody Bailey

3:30 pm → 30 min

Docker network without Docker
Oliver Seitz

3:30 pm → 30 min

The Limits of Prompting: ArchitectingTrustworthy Coding Agents
Nimrod Kor

3:30 pm → 30 min

Bringing AI Model Testing and Prompt Management to Your Codebase with GitHub Models
Kevin Lewis
Sandra Ahlgrimm

4:10 pm

4:10 pm → 30 min

How AI Models Get Smarter

Ankit Patel

4:10 pm → 30 min

IP Authentication: A Tale of Performance Pitfalls and Challenges in Prod

Christoph Eicke

4:10 pm → 30 min

AI'll Be Back: Generative AI in Image, Video, and Audio Production

Thomas Endres
Fabian Pottbäcker
Martin Foertsch

4:10 pm → 30 min

Composable Intelligence: How Henkel and Microsoft Are Shaping the Agent Ecosystem

Manuel Schettler
Dennis Zielke

4:50 pm

4:50 pm → 30 min

Videogames: The Medium of the 21st Century

Warren Spector

4:50 pm → 30 min

Kubernetes Security Best Practices

Rico Komenda

4:50 pm → 30 min

Vibe coding sucks! Long life to vibe coding: Hardening Applications for Production with GenAI

Raúl Berganza Gómez

4:50 pm → 30 min

Building Blocks for Agentic Solutions in your Enterprise

Rene Pajta
Dennis Zielke

5:30 pm

5:30 pm → 30 min

From Vision To Victory - What It Takes to Succeed in Tech Today

Wolfgang Platz

5:30 pm → 30 min

Friend or Foe? TypeScript Security Fallacies

Liran Tal

5:30 pm → 30 min

On a Secret Mission: Developing AI Agents

Jörg Neumann

5:30 pm → 30 min

Agentic DevOps: How AI-Powered Automation Transforms Software Delivery on GitHub and Azure

Mike

6:00 pm

7:00 pm

8:00 pm
